FIR Mission Statement

*FIR is a non-profit, cross-sector **research and training institute at RWTH Aachen University** in the field of **business organization, information logistics and corporate IT**. FIR aims to create the organizational principles for the **digitally integrated industrial company of the future**.*

*Through the development and transfer of innovative solutions, FIR contributes to enhancing the **competitiveness of companies**. This is undertaken within an infrastructure that is ideally suited for experimental organizational research – methodologically sound, scientifically rigorous, and conducted in close collaboration with experts from business and industry.*

*Our activities focus on the application of research to industry verticals. Currently these include **Future Logistics, Smart Services, Smart Maintenance, Smart Commercial Buildings, and Smart Mobility**.*

The FIR Business Model: Closing the Gap Between Research and Industry

Business Development Group (BDG) Smart Work

Smart Work

- ... implementation of new forms of learning
- ... implementation of new forms of work organisation
- ... anticipatory competence assessment
- ... design of organizational structures, cultural and technology frameworks

Goal

Our goal is the holistic and sustainable design of teaching, learning and working processes in organisations.

Roman Senderek, Head BDG Smart Work

» The "Smart Work" business development group supports companies and their employees in the transformation to the world of work 4.0 with intelligent and flexible solutions for business organization and management. The central focus is on designing innovative teaching and learning processes and embedding them in work environments and workflows that promote learning. «

USP

- Competences in the development and application of **scientific methods**
- Cross-sector insights from our **experiences in projects**
- More than just concepts - support until **implementation and market launch**
- Own **national and international** blended-learning development program

Fraunhofer IAO and IAT of the University of Stuttgart

Overview

- **Founded:** IAO – 1981
IAT – 1991
- **Institute management:**
Prof. Dr.-Ing. Prof. e. h. Wilhelm Bauer
(managing)
Univ.-Prof. Dr.-Ing. Oliver Riedel
apl. Prof. Dr.-Ing. habil. Anette Weisbecker
Dr.-Ing. Florian Herrmann
- **Financial volume:**
€46,7m. *
- **Personal:** 650 workers*

* 2020 Data, inkl. IAT of the University of Stuttgart

Our vision

Shaping the future of work – for the benefit of people

- We are the leading competence partner **for solving applied research tasks** in the fields of work design and technology management.
- We take a **holistic view of the interaction between work and technology** and thus create practical solutions for our customers.
- We accept our **responsibility towards society and the environment** and advocate **sustainability**.
- We **encourage our employees** in their scientific ambitions and provide **excellent working conditions**.

Team Competence Management

Work priorities

Competences

- Changing competence and job profiles in and by digitisation
- Digital competence

Learning

- Learning of the future – Future of learning
- (New) Learning formats in and by digitisation

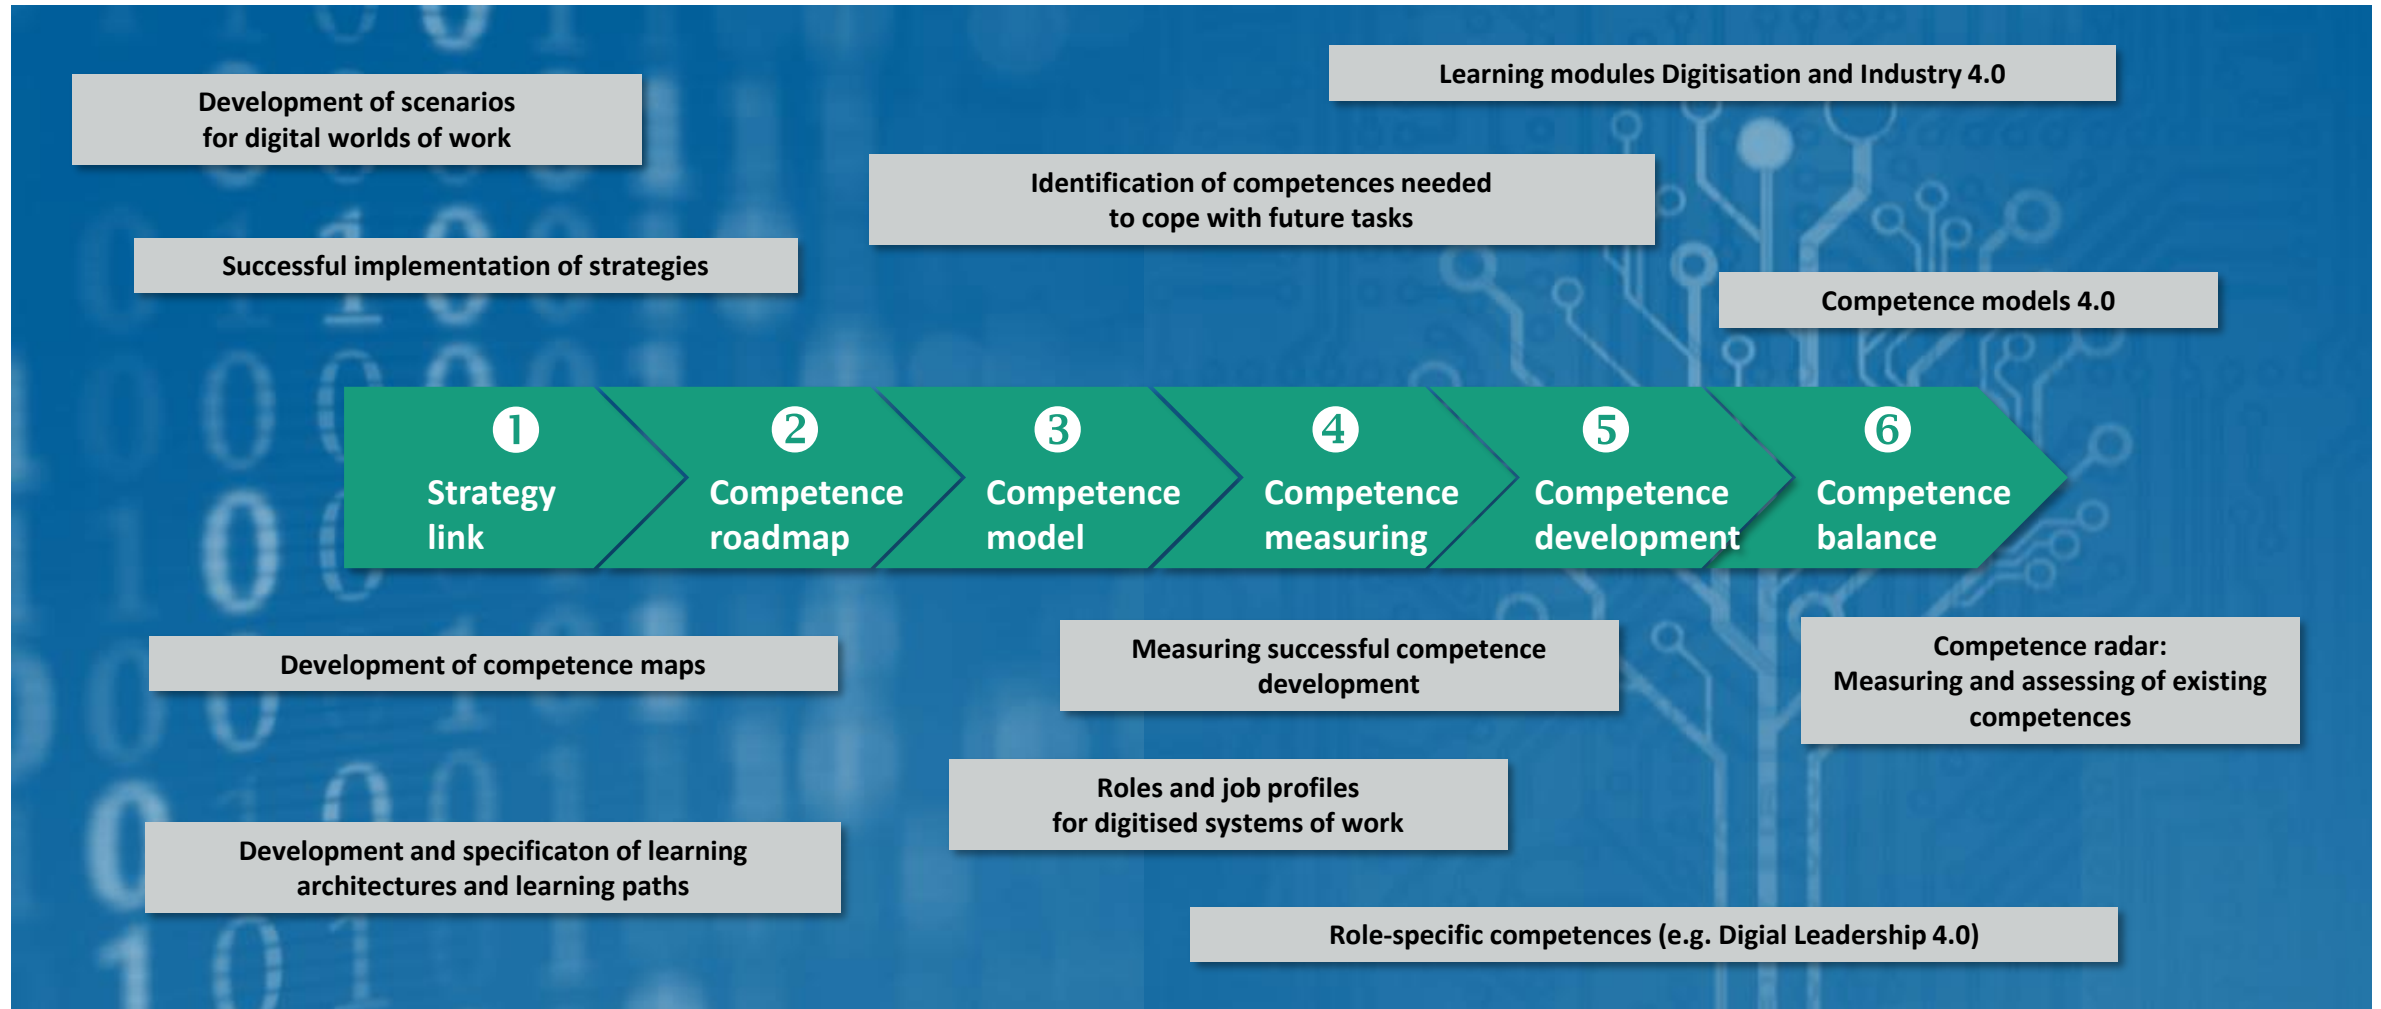

Work design

- Impact of digitisation and AI on work
- Design of work and assistance systems conducive to competences and learning

Team Competence Management

Selected products and solutions

Target group:

- Members of the management board
- Program manager
- Heads of organizational development
- Professionals and executives
- Project manager
- People who are responsible for or accompany internal decision-making processes and who want to update their management know-how

Central learning goals:

- ✓ Understanding the fundamentals and evolution of leadership
- ✓ Self-awareness and self-regulation
- ✓ Storytelling and embodiment
- ✓ Application or adaptation of the leadership style to deal with specific challenges in the digitized world of work
- ✓ Leadership of people and teams: (intercultural) communication, leadership at a distance, leadership tools, coaching techniques, promoting agility
- ✓ Strategic implementation of digitization
- ✓ Getting to know the latest technology trends in the labs "DFA Fabrik Aachen" and "Future Work Lab" and how to deal with them in a management context
- ✓ Practical examples and "lessons learned" from the eLLa4.0 cases

Specific features:

Blended learning course concept (face-to-face learning, webinars, web-based training (WBTs)), individual and accompanying coaching sessions, learning communities, integration of "DFA Fabrik Aachen" and "Future Work Lab"

Module 1: Leading Yourself

***Interactional skills
on intrapersonal level
(interaction with self)***

Module 2: Leading People and Teams

***Interactional skills
on interpersonal level
(interaction with employees)***

Module 3: Leading Organizations
