

## 2024: A Great Year for EUWIN

**Peter Totterdill (EUWIN and Workplace Innovation Europe)**

And what a year it has been!

EUWIN partnership has gone from strength to strength. In 2024 we welcomed the Norwegian University of Science & Technology (NTNU) and Saxion University (Netherlands), bringing our partnership to 12 institutions across 9 countries.

In partnership with the EU Horizon project [Bridges 5.0](#), we delivered eight webinars with a wide range of topics and speakers (you can watch all the recordings on our [website](#)).

But perhaps the highlight of the year (especially if you were there!) was our October Conference on *The Future of Workplace Innovation*, kindly hosted by [Sinnergiak](#) at the University of the Basque Country in Donostia/San Sebastián. Over 60 delegates took part in person and many more online, sharing three stimulating days of knowledge exchange, dialogue and relationship building.

### **So what's in store for 2025?**

We'll certainly be continuing our webinar series on the last Friday of each month (see our [forthcoming programme](#)) and are planning another major event during the year. Look out for further information and [contact us](#) with your ideas.

### **Some highlights from the October Conference...**
